EDUCATION

Public University, Bachelor of Science in Biology and Statistics May 2026
Thesis: Predictors of treatment adherence in community health programs | Advisor: Faculty Mentor
GPA: 3.88/4.00 | Honors Program | Relevant methods: regression, survey design, reproducible analysis

RESEARCH EXPERIENCE

Public Health Research Lab
Undergraduate Research Assistant Sep 2024 - Present

- Cleaned and analyzed 12,000 survey records in R to evaluate adherence patterns across demographic and clinical variables.
- Conducted literature review covering 64 peer-reviewed studies and summarized evidence gaps for weekly lab meetings.
- Prepared tables, figures, and reproducible analysis notes for manuscript draft under faculty supervision.

Behavioral Science Lab
Research Assistant Jan 2024 - Aug 2024

- Supported IRB documentation, participant scheduling, survey administration, and data quality checks for a longitudinal study.
- Created codebook updates and data-cleaning notes so new assistants could reproduce variable definitions and exclusion rules.

PUBLICATIONS & PRESENTATIONS

Doe, J., Faculty Mentor. Treatment adherence patterns in community health programs. Poster presented at Regional Undergraduate Research Symposium, 2026.
Doe, J., Research Team. Survey design lessons for longitudinal participant retention. Manuscript in preparation.

SKILLS

Methods: literature review, survey design, regression analysis, data cleaning, research ethics
Tools: R, Python basics, Excel, Qualtrics-style survey tools, citation managers
Writing: abstracts, poster presentations, research memos, reproducible documentation
